

International Small Report

Comprehensive international report at a fraction of the cost.

When doing business internationally, knowing your customer's credit and financial stability risk profile can help protect your company against financial losses and reputational exposure. In order to make informed credit decisions, your company needs a comprehensive international report that provides business history, risk information, credit background, and ownership information. That is why Experian created the Small report to help you with credit risk assessment to ensure that you can navigate the fast-moving waters of international trade successfully.

Challenges of doing business internationally

Companies looking to do business internationally face a variety of challenges. To thrive in the global environment they must be prepared to deal with these challenges, including:

- Lack of transparency of business data in the international marketplace.
- Significant operational costs using multiple data sources for international reports.
- Challenges in developing high quality and current sources of international data.
- Lack of robust risk assessment tools to assess credit worthiness of partners and suppliers.

Fresh information for reliable insights

Experian's Small report is a powerful tool that enables you to gain deeper perspectives into your customer and their history. Our report's strength is in the freshness of our real-time reports. We use the freshest data that comes directly from our own Experian bureaus as well as our Tier 1 partners around the globe.

Small Report Highlights

- Firmographic information such as name, address, phone number, and Website address (URL).
- Legal name and registration number.
- Risk and credit dashboard.
- Employee size, sales volume, and banking information.
- Credit risk rating and credit limit recommendation
- Beneficial owners.
- Company Financial Reports.

International Small Report

Powerful credit risk assessment of partners & vendors

The Small report provides vital information such as credit rating information, credit risk, and credit limit. You can also formulate a historical view of the company's performance by reviewing complete company financial reports that includes the full balance sheet, profits & losses, and earning ratios. All of this means you can have actionable data to make better-informed decisions with respect to your international partners and suppliers.
